

# Rewriting

In one part of the Use of English paper in the Cambridge First Certificate examination you are asked to rewrite sentences in a different way, using a word given, so that each one means the same as a sentence provided. This tests your knowledge of alternative structures and in some cases of phrasal verbs.

The 15 units in this section each consist of four preparatory exercises, of which one or two of them usually deal with phrasal verbs. There is a

fifth exercise, which is in the format of the examination question. The four preparatory exercises do not follow the examination format but provide the necessary practice to deal with the fifth exercise and with questions of the same kind. Before you answer the preparatory exercises, you will find it helpful to look at relevant entries in the Reference Section; the Reference Section number is given in brackets beside the exercise heading, like this: (RS3).

Her brother is **not as/so tall/intelligent as** she is.
